The consolidated financial statements for the year ended 31 March 2025 have been authorised for issue by the board of directors on 21 June 2025.

2. Basis of preparation

The consolidated financial statements for the year ended 31 March 2025 have been prepared in accordance with, and containing the information required by IFRS® Accounting Standards as issued by the International Accounting Standards Board (IASB) as adopted by the European Union (IFRS-EU), as well as the Interpretations (IFRICs) of the IFRS Interpretations Committee (IFRS IC) and the interpretations published by the Standing Interpretations Committee (SIC) as well as the requirements under Dutch law, including Title 9 of Book 2 of the Dutch Civil Code.

The material accounting policies applied in the preparation of these consolidated and company financial statements have been consistently applied to all years presented, unless otherwise stated.

Operating segments

The group's operating segments reflect the components of the group that are regularly reviewed by the chief operating decision-maker (CODM) as defined in note 21 'Segment Information'. From 1 April 2024, the following changes were implemented which impacted the operating segment information.

Changes to the organisational structure

In April 2024, the group centralised operational corporate functions that were previously part of the various Ecommerce segments and included in those segments' financial results. This change has resulted in costs now being incorporated within the group's Corporate segment. In the current year, there was a shift of around US\$55m in costs from the Ecommerce segments to the Corporate segment. Overall, on a like-for-like basis, overall centralised corporate costs have decreased year on year as the group realises the benefit of earlier cost rationalisation decisions. The corporate cost changes have been disclosed on a prospective basis from 1 April 2024 as obtaining similar comparative figures would be done with undue cost and effort.

Operating segment information on an economic-interest basis

From 1 April 2024, the group no longer discloses its segmental information on an economic-interest basis. On this basis, the group previously consolidated its share of the results of its associates and joint ventures in the segment disclosure proportionately, as an alternative performance measure. The group has shifted its focus to monitoring profitability and performance of the group's consolidated businesses separate from its associates and joint ventures. The group's associates and joint ventures are therefore monitored individually as opposed to their respective contribution to group's consolidated profitability on a proportionate basis. Accordingly, the operating segment information is now only provided for the group's consolidated businesses and does not include information on an economic-interest basis.
