⁽¹⁾ Refer to note 8 for an analysis per cluster.

⁽²⁾ Removal of accounting mismatches related to the impact of adjusting the CSM at locked-in rates (refer to page 17 for further details).

⁽³⁾ Elimination of the non-cash movements in the backing insurance contract assets (refer to page 17 for further details).

⁽⁴⁾ Includes a release in asset mismatch reserve of R621 million (increasing net result from financial services) as per note 2, refer to page 42 for further details on the movement in asset mismatch reserves.

⁽⁵⁾ Net impact of new reserves established in respect of future-fit project expenses (reducing net result from financial services) and the release of shareholder fund reserves to absorb the actual project expenses recognised in the statement of comprehensive income (increasing net result from financial services). Refer to page 17 for further details.
